

NEW!

SPARK™

For Higher Performance

Leading Solar Swimming Pool Technologies
to new Experience

The only semi-glazed solar panel

HELIOCOL

SOLAR POOL HEATING. ENGINEERED FOR LIFE.

Unique Benefits:

- High performance in cool climate
- High performance in windy climate
- Sleek look with seamless connections
- Achieves higher pool temperature
- Ideal solution for limited roof space
- Lowest € per kWh in pre-heating application
- 10 year manufacturers warranty

Dimensions & Design Parameters:

Collectors Type		Spark 40	Spark 30
Length	m	3.23	2.31
Width	m	1.23	1.23
Area	m ²	3.85	2.77
Weight "Dry"	Kg	17.0	13.1
Volume Capacity	Lit.	11.7	9.0
No of Binders	#	12	9
Roof Load	Kg/m ²	7.5	8.0
Optimal Flow	Lit/min	15	12

- Recommended roof pitch: > Latitude -20°
- Binding system suitable for all roofs
- Circulation method: pumped drain - back
- Configurations: dedicated or motor-valve or solar pump
- Combine with auxiliary heater: Yes
- Mechanical stability: 20°C/25 bar 80°C/20 bar
